Human Papilloma Virus Vaccines

Debbie Saslow, American Cancer Society

Malaria Vaccines

Christopher Plowe, University of Maryland

Vaccines in the ERA of Genomics and TLRs

Rino Rappuoli, Novartis Siena Vaccine Division

Rotavirus Vaccines: What Questions Remain?

Roger Glass, Fogarty Institute, NIH

Pneumococcal Vaccine: Its Role in Pandemic Influenza Preparedness

Keith P. Klugman, Emory University

The Academy's new "Vaccine Sciences" series kicks off with a meeting focused on progress towards the development of vaccines for human papilloma virus, malaria, rotavirus, and pneumococcus as well as a discussion of the role of genomics in immunization against chronic diseases like HCV, HIV and cancer.

This meeting is co-sponsored by the New York Academy of Sciences and the Public Health Research Institute at UMDNJ and supported with funds from Merck, Novartis, and Wyeth.
